

CITIZEN INPUT: LAND USE ELEMENT
COMPREHENSIVE PLAN UPDATE
City of Berea

The 2013 Joint Comprehensive Plan for the City of Berea is currently being updated to reflect the collective changes in the community over the past few years.

As part of this update process, the Comprehensive Plan Update Committee is asking for your input regarding land use in Berea. Your comments will help in the development of the Land Use Element of the Plan which, when finalized and adopted, will be the basis for future land use and development decisions impacting all citizens of Berea.

The Comprehensive Plan is meant to set a course for future development through the year 2033 and should reflect overall community ideals. While individual landowner interests are important, they must be considered secondary to the general health, safety and welfare of the community at large. Thus, your comments and suggestions should be grounded in the Goals and Objectives of the Plan.

Anyone unable to attend the public meeting may also contribute to the discussion using the Citizen Input form which can be found, along with the adopted Statement of Goals and Objectives, the proposed land use map and other documents at:
